

## LAM-DAQ- (Data acquisition) module-Model T-1 i T-2

Model Tini 1A, 2A

USB 2.0 Full Speed connectivity to PC

- Analog input channels: 1-2 Single-ended
- Input port : Multi sensor
- Input signal range : 0-3.3V
- Analog Input impedance : 1Gohm
- Resolution : 12Bit
- The maximum total error : < 0.2%
- Sampling rate : 100 sps
- Removable sensor module
- Application adapter 9 pin D-Sub

### Accessories

- Sample code: vb6, vbnet
- DAQ software
- Removable sensor module-pcb schematic
- Sensors: DO, PH, Temp., CO, H2, etc.
